How many Baptisms in your church since last report?

Please enter the number of baptisms in your church in the space provided since the last time you reported that number on this form. If this is the first time, it will be the number since it was reported on the 2016 Annual Church Profile. Your recording of this information will help encourage other churches as we move forward toward the goal of 50,000 baptisms each year. This will not replace your ACP report at year-end, but will allow TBC to report progress towards our goal each month.
