High School
Bible Drill
(Grades 10-12)

Leader's Guide

Tennessee Baptist Churches giving through the
Cooperative Program make this ministry possible.

High School Bible Drill is designed to equip students, grades 10-12, in developing useful skills and knowledge of the Bible, as well as, developing poise and self-confidence. Students who participate in High School Bible Drill learn to find books of the Bible, locate specific scripture references, learn three different approaches to the Plan of Salvation, and scripture references to document basic beliefs and ethical convictions. Students will memorize large scripture passages and principles of what Baptists believe. The most important goal of High School Bible Drill is for older youth to know how to use the Bible to make a difference in their lives for today and tomorrow. May God bless you as you lead your students on this wonderful & exciting journey of High School Bible Drill 2019.

High School Bible Drill Verses and Cycles

The verses for High School Bible Drill are grouped into three cycles. Students who participate in the drill for all 3 years (grades 10-12) will be learning different verses each year.

Note: If a driller is using the Christian Standard Bible or the Holman Christian Standard Bible, verses may or may not exactly match the King James verses. Be sure to use the verses and scripture references found on the drill cards for the specific translation.

Verses for the “What We Believe Drill” sections are selected from basic doctrines outlined in The Baptist Faith and Message. Students are challenged to learn verses which are foundational to understanding Baptist distinctives.

High School Bible Drill Commands

Drillers using King James Version, Christian Standard Bible, or Holman Christian Standard Bible can participate in the same drill. (Note: In an associational or regional drill, if there are enough drillers, group drillers according to their version preference- KJV, CSB, or HCSB.)

In conducting a High School Bible Drill, callers will use the following commands:

“Attention”

Stand straight; one foot not extended in front of the other; eyes focused on the caller until the command “Start;” Bible held at side (in either hand) with Bible spine down, palm under the Bible. (Only approved drill Bibles may be used.) Bibles must be in good condition and unmarked.

“Present Bible”

Bring Bible to waistline. The Bible should be parallel to the floor. A driller who searches with his right hand should hold the Bible on his left hand with Genesis down and his right hand resting flat on top of the Bible. A driller who searches with his left hand should hold the Bible on his right hand, Genesis up, with left hand resting flat on the front cover of the Bible. The driller’s thumb and fingers cannot extend around the sides of the Bible. Following “Present Bible,” the caller announces the call. The call is stated only once. At the caller’s discretion, a call may be repeated once if room noise or distractions warrant a repeat of the call.

“Start”

This command is the signal for participants to begin searching. In searching, proper handling of the Bible is required. Proper handling includes no rustling, slapping, or wrinkling of pages.

In the Book Drill, the index finger may be placed upon any verse in that book before stepping forward.

In all other drill categories, the driller finds the verse, places his index finger on the called verse BEFORE stepping forward. Note: The index finger must be in the proper place on the page BEFORE stepping out. It is a mistake to begin any movement before “Start” is called.

Drillers must locate the verse and step across the masking tape line within 8 seconds or it is counted as a mistake.

If a driller crosses the masking tape and then realizes he/she has made a mistake in locating the scripture, he/she cannot step back. The driller should then raise his/her hand indicating that he/she has made a mistake. NEW! The caller has to acknowledge a student who raises his/her hand for the mistake so that the judges are aware. The judge chairman can let the caller know there is a mistake. The caller must acknowledge mistake by saying “Thank you, number _____”.

Note: Under no circumstances can a driller step forward, step back and step forward again even if they are within the 8 seconds.

Drillers need to be accurate in locating the call BEFORE they step across the masking tape line. If called upon to respond, if a verse is on two pages in the Bible, the driller should ask the caller if the page may be turned.

“Time”

The timekeeper calls out the word “Time” at the end of eight seconds. All drillers stop searching. Bibles should not be slammed shut.

The caller will call upon one driller to respond. For each call, a driller is given only one opportunity to give a correct response unless the caller asks the driller to repeat the answer. In order to give all drillers opportunities to recite calls, the caller should use the Caller Frequency Card (provided online at <http://www.tnbaptist.org/missionsministries/youth/>)

After the response, the caller has the drillers return to “Attention” (original positions, Bibles held at side, spine side down)

Drills

There are five types of drills used in High School Bible Drill. The Bible is used in each of these drills. You will notice that 3 drills have five calls, one drill has six calls, and one drill has three calls. You will also notice that the point value is different in three of the drills.

All calls must be located, and drillers step out in 8 seconds!

Book Drill

(5 Calls - 2 Points per Call)

The caller announces the name of any book in the Bible. It is suggested that the drill include books from both the Old and New Testament.

At the command “Start,” participants begin searching for the book that was called.

A driller locates the correct book and places his index finger on any verse in that book BEFORE he steps forward.

If called upon, the driller must be able to (1) name the book which immediately precedes the book called, (2) name the book called, and (3) name the book which immediately follows the book called. They must do this in the order of 1, 2, and 3.

Scripture Searching Drill

(5 Calls - 4 Points per Call)

The caller announces a Scripture reference to be found. Scripture-searching drills are taken from any verse in the Bible. It is suggested that the drill include both Old and New Testament verses that have special meaning or implications to students.

A driller must locate the correct Scripture reference and place his index finger on the verse BEFORE he steps forward.

If called upon, the driller must be able to read the entire verse and state the scripture reference. Reading ability is not judged.

Steps to Salvation Drill
(6 Calls - 4 Points per Call)

All six verses will be called out in the order listed.

The purpose of this drill is to help Students recall verses in order to share the plan of salvation with someone.

The caller will state the scripture reference.

On the command “Start” a driller must correctly locate the verse and place his index finger on the verse BEFORE he steps forward.

When time is called, the caller will instruct all drillers to close their Bibles.

If called upon, the driller will recite the verse word for word, and give the scripture reference.

What We Believe Drill
(5 Calls - 5 Points per Call)

The caller announces a question taken from the official What We Believe Drill verses.

A driller must correctly locate the verse listed that answers the question and place his/her index finger on the verse(s) BEFORE he/she steps forward.

When time is called, the caller will instruct the drillers to close their Bibles.

If called upon, the driller must be able to (1) quote the question, (2) recite the correct verse word for word, and (3) state the Scripture reference.

The driller may do this in any order comfortable to them.

Key Biblical Passage Drill
(3 Calls - 7 Points per Call)

The purpose of this drill is for students to hide longer Key Passages of Scripture in their hearts and be able to recite those passages word for word.

The caller will call out the title of a passage in this section.

A driller must correctly locate the verses associated with it and place his index finger on any verse in the passage BEFORE he steps forward.

When time is called, the caller will instruct the drillers to close their Bibles.

If called upon, the driller must be able to (1) state the title of the Key Biblical Passage, (2) quote the passage word for word and (3) give the reference. The driller may do this in any order comfortable to them.

Judging High School Bible Drills

Each High School Bible Drill needs 5 adult judges (ages 18 or older).

Three (3) judges will serve as Regular judges only marking mistakes and two (2) judges will serve as Bonus Judges only marking bonus points (driller who steps out first).

One of the experienced judges needs to serve as judge chairman and be ready to share results and mistakes with the drill participants.

Leaders will need to provide training for the adults enlisted to judge the drill(s).

Your Regional Coordinator (see page 17) can assist you in the training of your judges. Try to enlist adults who are interested & have an understanding about students and try to avoid enlisting parents of drillers. The training session should include instructions on how to use the score sheet, the criteria for judging, and specific duties of the caller, judges, and timekeeper.

In judging High School Bible Drills, if at any time there is any discrepancy in judging, judges will always give the benefit to the student!

TIE- If there is a tie for first place in the association, regional or state drill, the judges in consultation with the caller **MUST** do a run-off to determine the winner. It is suggested that the optional call and one additional call from each section be used as the TieBreaker. There can only be one winner (first place).

For Church and Associational Drill(s), use the official score sheet available at <http://www.tnbaptist.org/missions-ministries/youth/>. Score sheets are reproducible and should be used for all drills.

Judges should sit facing the participants (preferably behind tables). It is best that the bonus judges sit on each end of the judging tables so that they have a better view of which driller(s) step out first. Drillers should be standing in front of the judges behind a straight masking-tape line. The caller should be in the center of the judges, facing the drillers.

All drillers should wear assigned numbers that are visible to the caller and the judges (3 X 5 index labels work well). The caller should only refer to the drillers by the number they are wearing, not by name.

Judges score each driller as individuals and use the number they are wearing and not names on the score sheet and in any discussion of drillers.

No more than 14 drillers should participate in a single drill. This aids the judges in being able to accurately score the drillers, as well as, allows the Caller to call on all drillers at least once during the drill. (Note: The caller should use the Caller Frequency card which is available online at <http://www.tnbaptist.org/missions-ministries/youth/>.) If you have more than 14 Students participating, you will want to divide them into multiple groups.

The Caller (1 person)

The drill caller is responsible for conducting the drill and checking the accuracy of answers.

Be prepared to handle the unexpected.

If some distraction occurs when the call is being given causing a student to make a mistake in responding, instruct the judges to disregard that call and give an alternate call or the caller can choose to repeat that call.

Callers should remind all audience participants to turn off their cell phones during the drill and to place everything in their laps on the floor and not to get up and leave during this drill as this is a distraction to the drillers.

Regular Judges (3 persons)

The three regular judges score regular points by only marking mistakes.

When a driller makes a mistake, write the letter a-e (listed below) in the corresponding box on the score sheet.

NOTE: If two mistakes in one call are made, points are deducted for only one mistake.

Mistakes

No Points are given if the driller:

- a. Fails to step out within eight (8) seconds.
- b. Gives an incorrect response. This includes any driller who raises his hand indicating an incorrect reference and is acknowledged by the caller. It is an error to step out, then step back, then step out again even if it is in the allotted time.
- c. Fails to stand straight or keep his eyes on the caller or begins any movement before the command "Start" is given.
- d. Steps forward before the index finger is on the correct response.
- e. Fails to handle the Bible according to instructions, abuses the Bible, or steps back after stepping forward.

Bonus Judges (2 persons)

Two Bonus judges provide accuracy for the drillers as to which driller(s) step out first.

The Bonus judges only score bonus points by placing a check mark in the box under the participant's identifying number on the score sheet for the call in which a bonus point is earned.

Take Note:

- Bonus judges should sit apart from each other. It is suggested that they sit on the ends of the judging team with the regular judges in the middle. On each call, the driller who steps out first scores one bonus point.
- If two or more drillers step out at the same time, the Bonus judges score a bonus point for each driller.
- No bonus point is given on a call if the driller(s) who steps out first gives an incorrect response if called on by the Caller.

When the judges are dismissed to score, the Bonus judges confer with each other to award only one bonus point per driller(s) per call.

In the case of any discrepancy between Bonus judges as to who stepped out first, each of the involved drillers should receive a bonus point.

Computing a final score:

Regular scoring judges will score each driller as an individual. Judges scoring regular points will mark only mistakes. If two mistakes in one call are made, points for only one mistake will be deducted.

To determine regular points- on each score sheet deduct the driller's amount of errors from 100.

- In the first drill, the point value for each call is two (2).
- In the second and third section, the point value for each call is four (4). □ In the fourth drill, the point value for each call is five (5).
- In the fifth drill, the point value for each call is seven (7) The regular points are totaled from each score sheet for each driller.

Each regular judge can potentially award 100 points per driller.

The judge chairman verifies the regular points awarded to drillers and then adds the bonus point(s) from the bonus judges to the drillers total regular point scores.

A driller with a perfect score could have 300 regular points plus a possible 25 bonus points for a total score of 325.

The Timekeeper (1 person)

The timekeeper will call "Time" eight (8) seconds after the caller gives the command "Start".

The timekeeper needs a stopwatch to accurately call time.

The regular judges should mark a mistake ("a") on any drillers who do not step out before the Timekeeper calls "TIME".
