

BACKGROUND SCREENING

DO YOU NEED TO CONDUCT A BACKGROUND SCREEN ON AN APPLICANT OR VOLUNTEER?

ClearStar Background Check

ClearStar is a NAPBS accredited national background check provider who will provide background check services to churches and associations that will help you be compliant with FCRA guidelines.

They offer an alternative option for faith based organizations to have a candidate or volunteer conduct self-screening through a dedicated website. No need for the church to collect personal information from the subject and no compromising data stored at the church.

Significant cost savings, no church account to set up, no set up fees, and the site is ready and available for immediate use. Four levels of background screens are offered that are the most standard for faith based organizations.

Package 1 – Basic \$9.95/Package 2 – Basic with One County Criminal \$21.25/Package 3 – Basic with Multi County Criminal \$36.50/Package 4 – Comprehensive \$38.50 (go to <https://faith.clearstar.net> for more detailed information on the packages).

5955 Shiloh Rd. E., Suite 104 * Alpharetta, GA 30005
877.275.7099 * www.clearstar.net

Church sets up procedure to communicate the link to the candidate, advising which screening package to select, how the financial aspect will be handled and identifying the email address where the church would like to receive the report from the candidate.

Send link to candidate
<https://faith.clearstar.net>

Self-pay (credit card entry required) program options:

1. Reimburse candidate when background results are received
2. Have candidate come to your location to do the background screen and you pay with your credit card upon entry
3. Use a re-loadable Visa/MasterCard and provide card information directly to candidate so they can do the background screen from their home or office.

ClearStar emails candidate when the report is ready to release. They will call ClearStar to confirm their identity and email. When they receive the report from ClearStar, they will forward the report to your email.

All personal information on the report is redacted, so it is safe to email.
