## **TBMB Strategic Planning Process Overview**

Report from Budget and Ministry Committee

Budget planning for 2021 – 2022 was an extension of the strategic planning process that TBMB has been working on for several years. The objective of this process was to align all of the activity, events, and ministries of TBMB under the mission of TBMB, as shown here in this graphic. Each level of the graphic expands on the mission but contributes back to the mission. Activity which does not contribute to the mission, although it may be of good quality, should be discarded.

TBMB staff began work on the strategic plan for 2021 – 2022 with examination of the organization's Mission, Vision, and Values. It then moved through a step-by-step process outlined below to build the strategic plan before beginning to apply budget dollars to that plan.

Mission: Making Christ Known By Serving Churches

Vision: Tennessee Baptist Mission Board is a premier Great Commission organization that:

- Offers ministry support and minister equipping
- Develops missions and ministry opportunities
- Expands the network of cooperating churches
- Leverages technology
- Reflects ethnic diversity
- Cultivates resources
- Shares organizational Knowledge

**Values:** Tennessee Baptist Mission Board is a Christ-centered, field-focused, Great Commission organization created by Tennessee Baptists to serve Tennessee Baptist churches which values:

- Relationships
- Innovation
- Stewardship
- Excellence

**Objectives:** Staff then began identifying objectives, in addition to the five primary objectives, that would contribute to TBMB's mission. An objective is defined as the desired outcome. A common example used in staff discussion was the military objective. To paraphrase John Wayne, "Our objective today is to reach the top of Mount Suribachi!" The objective is clear, measurable, and contains a time frame. Through this process, TBMB staff identified 23 unique objectives that include the work of ministry and support groups.

**Strategies:** The second step in the process was development of strategies that create pathways to achieve the objectives. Technical definitions that were used to describe working with strategies were: 1) To choose a method or plan to bring about a desired future, such as achievement of an objective; and 2) To diagnose near term challenges so that a plan of action can be implemented in order to overcome impediments and make progress toward the objective. Strategy planning recognizes that there are multiple ways to achieve the objective, some of which are unique unto themselves and others that compliment other strategies and contribute to or reinforce the success of other strategies. The attached strategic plan contains a total of 124 different strategies.

**Goals:** Once strategies were developed, staff began to identify specific goals that would fall within each strategy. Goals are measurable results that lead to reaching the objective. They are quantifiable and date-oriented and must answer the question, "How do we reach the objective through this strategy?" At last count, there were 479 goals included in the strategic plan. This may have changed some during the editing process which is still ongoing.

**Action Plans:** The last step in the strategy development is the listing of action plans. These are specific steps that staff will take to lead to the accomplishment of the goal. Obviously, every action cannot be listed in the plan, but the hope is that sufficient actions will be listed to identify the various activities that will be undertaken to accomplish the goal.

**Budgeting:** Once the strategic plan was developed, TBMB Administration provided a dollar amount for each objective, to be allocated by the staff responsible for that objective. Recognizing that most objectives would require more dollars than are anticipated to be available, staff was able to identify some expenses as a lower priority using an "X" to indicate that those dollars were not included in the final budget, but were labeled as unfunded activities. Should funds become available then the action is already in place.

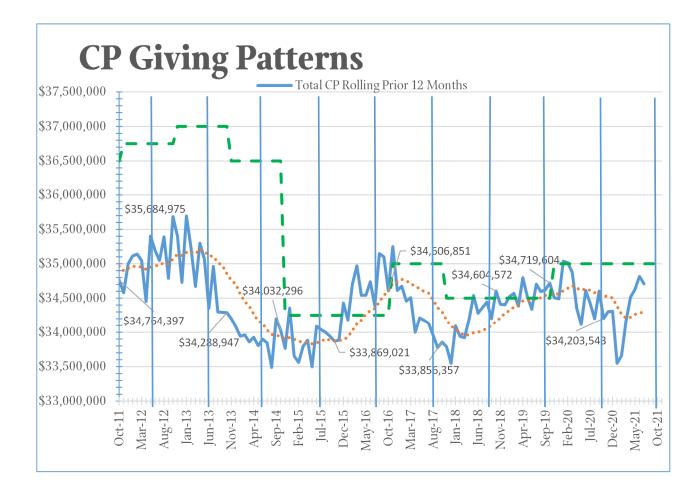

**Calendaring:** The last step in the total process is the development of a master calendar for the 2021-2022 fiscal year. Each team will identify events, meetings, and emphasis time frames on the master calendar. These are then reviewed by the Executive Leadership Team to ensure that they are consistent with the strategic plan and that there are no obvious conflicts among the scheduled events.

## **Financial Trends**

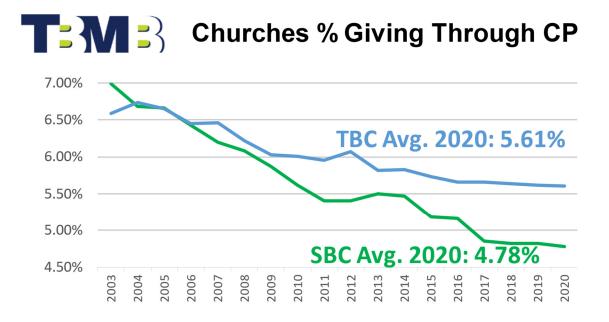

#### 1. Cooperative Program Giving

Cooperative Program giving has remained strong throughout 2020-2021, even though it started out in a season of great uncertainty. Lingering concerns from the pandemic were overcome by the faithful giving of Tennessee Baptists. The blue line on the following chart shows the total Cooperative Program receipts for the preceding 12 months at each point. The most recent high was in June 2021 at \$34.8 million. July saw a slight dip, but the average trend line (brown line) continues to move up.

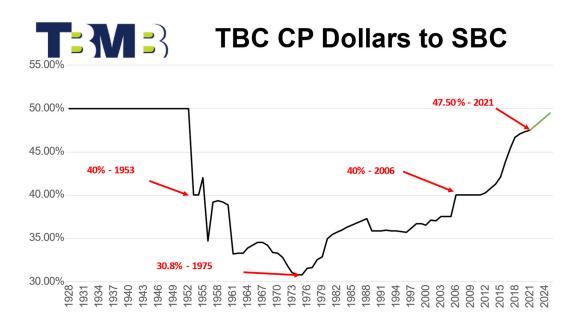

#### 2. Churches Percentage Giving Through Cooperative Program

The steady decline in the percentage of undesignated receipts that churches send through the Cooperative Program has definitely slowed over the last three or four years. Between 2019 and 2020, the average TBC Church dropped only .01% point from 5.62% to 5.61%. The average SBC church dropped from 4.82% to 4.78%. Anecdotal evidence continues to show a number of churches making strides in increasing their percentage.

#### 3. Equal distribution

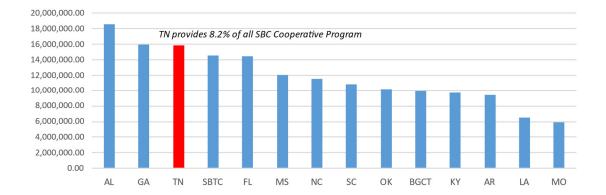

The move towards equal distribution of Cooperative Program funds between TBC and SBC causes has slowed over the last four years as Cooperative Program coming from churches has increased only slightly. This graph shows the history of CP distribution to SBC since 1927.

#### 4. Giving to SBC Among Southern State Conventions

Tennessee continues to be one of the leaders in giving to the Southern Baptist Convention. In 2020, Tennessee was the 3<sup>rd</sup> largest state convention behind Alabama and Georgia, trailing Georgia by less than \$140,000. Tennessee's contribution accounted for 8.2% of all CP gifts to the SBC. The 14 southern state conventions accounted for more than 85% of all Cooperative Program funds sent the SBC.

# **Recommendation Sheet**

Tennessee Baptist Mission Board Committees and Board of Directors

#### Adoption of 2021-2022 Cooperative Program Allocation & TBMB Budgets

#### For Presentation to:

08/17/2021
09/14/2021
11/16/2021

This recommendation has been prepared by Tennessee Baptist Mission Board staff as authorized by the Executive Director, in an effort to provide assistance to the Committee and/or Board of Directors in addressing the issue presented. The staff offers the recommendation in fulfillment of its understanding of the Board's expectations of staff, and with total deference to the Committee and Board. This recommendation is a starting point for the Committee and Board, based on the best judgment of the Executive Director and staff. Directors should carefully consider the recommendation and provided background information, discuss the issue thoroughly, make necessary amendments or reword the recommendation as appropriate, and then make an informed decision. Directors should not hesitate to ask staff questions or request additional information on any matter.

#### **Process:**

The Budget and Ministry Committee recommends allocations of Cooperative Program funds and a total Cooperative Program goal to the Board of Directors, who makes the recommendation to the messengers at the annual meeting. The committee also recommends the detail budget items for the Tennessee Baptist Mission Board (TBMB) and Convention Operations sections of the budget to the Board of Directors, who authorizes the implementation of those budgets upon their adoption by the Board of Directors. The Board of Directors may amend any portion of the budget presented to it by the Budget and Ministry Committee. Likewise, messengers may amend any portion of the Cooperative Program allocations presented to the Tennessee Baptist Convention (Convention) by the Board of Directors.

#### Authority for Approval:

The Business and Financial Plan of the Convention, which has been adopted by the Convention in annual session, describes the Budget format and preparation process in Article III.

#### **Purpose:**

Approval of the Cooperative Program allocations and annual TBMB and Convention Operations budgets provides guidance and direction to the staff in the allocation of Cooperative Program funds and specific missions and ministries.

#### **Suggested Recommendation:**

 That the Board of Directors recommend for adoption by the messengers to the 2021 Annual Meeting of the Tennessee Baptist Convention the 2021 - 2022 Cooperative Program Budget goal of \$35,000,000, with \$800,000 allocated to Cooperative Program Administration and Promotion and with the remainder, including any amount over the goal be allocated as follows:

a)	Southern Baptist Convention	47.50%
b)	TN Baptist Mission Board	31.50%
c)	Carson-Newman University	5.27%
d)	Union University	5.27%
e)	Harrison-Chilhowee Baptist Academy	0.98%
f)	TN Baptist Adult Homes	0.85%
g)	TN Baptist Children's Homes	4.28%
h)	TN Baptist Foundation	0.50%
i)	Convention Operations	3.85%
	Total	100.00%

#### Adoption of 2021-2022 Budget

- 2) That the Board of Directors adopt the Tennessee Baptist Mission Board budget of \$17,072,200 based on Cooperative Program allocation of \$10,773,000, Golden Offering Income of \$2,100,000, and generated and other income of \$4,199,200.
- 3) That the Board of Directors adopt the Convention Operations budget of \$1,666,700 based on Cooperative Program allocation of \$1,316,700 and generated and other income of \$350,000.

#### Adopted Recommendation:

#### **Background Information**:

More information is available in the 2021-2022 Strategic Plan with Budget book. It provides information helpful in understanding the strategic planning process. Here are a few highlights specifically about the budget.

- 1. The total Cooperative Program goal is remaining at \$35,000,000. The rolling 12-month total for Cooperative Program was \$34.8 million at the end of June 2021. Cooperative Program has remained steady throughout the year and some churches are indicating plans to increase their percentage of giving in the new year. However, there are also many churches inquiring about ways to give around the SBC portion of Cooperative Program. While this will reduce total CP giving, it should not impact the dollars being made available to TBC entities.
- 2. Consistent with the action of the TBMB Directors last fall, because there is no increase in the total budget, there is no increase in the percentage being sent to the Southern Baptist Convention. It will remain at 47.5%.
- 3. The Golden Offering for TN Missions budget has been increased from \$1.8 million to \$2.1 million. The 2020-2021 goal had been reduced because of the expected shortfall caused by the pandemic. It is anticipated that the 2021-2022 offering will build on the 2019 record offering and new promotional efforts.
- 5. The TN Baptist Mission Board budget includes a total of 3% for salary increases. Increase will be granted on a merit basis utilizing a system to equalize compensation between common positions and to recognize significant achievement. It will also be used to help close the 12% gap between TBMB salary scale and comparable compensation in other non-profit organizations.

## Tennessee Baptist Convention Cooperative Program Allocation Budget 2021 - 2022
