

Seeing the Harvest Be A Myth Buster

MYTHS VS FACTS

MYTH: Too Many Churches Already Exist!

FACTS: There are a reported 4 Million people in Tennessee who do not have a relationship with Christ.

The diversity of Tennessee necessitates new churches who are willing and able to reach different kinds of people.

Currently there are 143 different people groups in Tennessee. 43 of these groups are less than 2% reached.

MYTH: Planting Churches Will Hurt Existing Churches!

FACTS: Becoming involved with church planting can bring new life and missional vitality to existing churches, pastors, and church members.

Church planting is not just for lone-ranger church planters. But works best if it is in concert with existing congregations working together to expand the kingdom of God through starting new churches in a city or region.

Churches that engage with church planting can be energized and experience new life as they seek to recover the mission of God in their community.

MYTH: Planting Churches Cost Too Much Money!

FACTS: There are some church planting methodologies that cost little to no money!

If you want to lead your church to be a MYTH BUSTER, contact the Tennessee Baptist Mission Board - New Churches Team at 1-800-558-2090 or 615-371-7925. Or visit our website at www.tnbaptist.org.
